## "Thank's Proxy1Media!"-Says Rob of Wreford Communications Inc.

*"My company has worked with Proxy1Media for well over a year now. During that time, Dave and his company have used my services mostly in the area of audio production for website's and landing pages."*

Boca Raton, FL ([prHWY.com](http://prHWY.com)) January 6, 2011 - "My company has worked with Proxy1Media for well over a year now. During that time, Dave and his company have used my services mostly in the area of audio production for website's and landing pages.

Not only have I worked closely with Dave on many projects, but I would also like to mention that he has become a friend. His expertise in SEO (Search Engine Optimization) and Website Creation has helped out my company and my clients.

I have never had to wait to get paid either for work I have done for Proxy1media.

The company (in my opinion) is solid, very much a class act and knowledgeable with Digital Media. I would highly recommend Proxy1Media to anyone who needs help with The Information Super Highway!

Thank you Dave & Thank You Proxy1Media!",
