
Shady Grove Fertility Hosts IVF & Donor Egg Seminar in King of Prussia, PA

All guests will receive a free fertility consultation at Shady Grove Fertility in Chesterbrook, PA and will be eligible to win up to \$10,000 to be applied towards a future fertility treatment cycle.

King Of Prussia, PA (prHWY.com) March 3, 2013 - What: Shady Grove Fertility is hosting a free patient seminar in King of Prussia, PA for those interested in learning more treatment and financial options for men and women with infertility. Isaac E. Sasson, MD, PhD from Shady Grove Fertility's Chesterbrook, PA office outside of Philadelphia will be sharing information about low-tech fertility options, in vitro fertilization (IVF) and donor egg as treatment options for infertility. In addition, a Shady Grove Fertility patient will share her experiences of being diagnosed with infertility and eventually finding treatment to help her build the family she had always wanted.

All attendees will receive a complimentary consultation with Dr. Sasson at Shady Grove Fertility, and one lucky guest will receive up to \$10,000 to be applied toward the cost of one treatment cycle.

Who: Men and women from around the Philadelphia area are invited to a special IVF & Donor Egg Seminar hosted by Shady Grove Fertility. A reproductive endocrinologist from the largest fertility center in the United States will be speaking to the audience to discuss IVF and Donor Egg fertility treatment options as well as an unique 100% refund program for fertility treatment

When: Sunday, March 3, 2013 at 11:30am

Where: DoubleTree by Hilton
301 West Dekalb Pike, King of Prussia, PA 19406
Photos available upon request.

About Shady Grove Fertility

With over 5,000 IVF cycles and 1,000 donor egg cycles performed annually, Shady Grove Fertility Center is the largest and one of the most progressive fertility and IVF Centers in the United States, producing pregnancy success rates that are consistently higher than the national averages. Twenty-eight reproductive endocrinologists, as well as PhD scientists, geneticist, and over 400 highly specialized staff care for the thousands of local, national and international patients who seek treatment through the Center each year. Shady Grove Fertility conducts clinical research in collaboration with the National Institutes of Health and is part of their subspecialty training Fellowship in Reproductive Endocrinology. In addition to participating with over 30 insurance plans, Shady Grove Fertility innovated numerous treatment and financial programs, such as Shared Risk 100% Refund Program, Multi-Cycle Discount Option for IVF, Shared Donor Egg, International Donor Egg, and Shared Help, to make treatment more affordable for more couples. Shady Grove Fertility is a member of the Attain Fertility Network.
